

## Ride-on scrubber dryer

### KÄRCHER BR 90/140 R Bp

This ride-on scrubber drier is used in areas that are normally reserved for big walk-behind models. It is ideal for large supermarkets, warehouses and factory floors. Thanks to its compact suction width, this machine has no problem traveling through narrow doorways and aisles.

Optimal adjustment on different floor coverings by continuous adjustable brush pressure and water quantity. A further advantage is FACT: the optimal adjustment of brush speed on the application and the necessity of the surroundings. The memory function allows the operator to recall his personal saved adjustments e.g. brush pressure and water quantity at the push of a button.

The chassis has been designed to make this machine one of the most manoeuvrable in its class. It needs only 1.6 metres between walls to turn and can be driven away from walls and shelves at a right angle without damaging them.

Pre-sweeping facility sweeps coarse dirt into the bin.

Water guide rail feeds dirty cleaning solution to suction beam for optimum pick-up. This ensures dry floors even in tight corners.

The battery is positioned in the centre of the housing and rated for up to four hours of operation.

140-litre fresh/dirty water tank for long periods of uninterrupted operation (up to 2700 m<sup>2</sup> with one tank filling).

#### STANDARD ACCESSORIES

- 2-tank system
- Automatic water stop
- Integrated sweeping attachment
- Parking brake
- Pre-sweeping attachment
- Roller brush
- Travel drive

**Part no. 1.246-351.0**

#### TECHNICAL SPECIFICATIONS

Dimensions (L x W x H)	1550 x 940 x 1340 mm
Working width, brush	900 mm
Working width, vacuum	1060 mm
Motor rating	Max. 3100 W
Battery Capacity	400 Ah
Battery Voltage	24 V
Tank capacity fresh water	140 l
Tank capacity dirt water	140 l
Brush contact pressure	251 g/cm <sup>2</sup>
Brush rotation speed	1100 rpm
Weight	230 kg
Sound pressure level	74 dB
Traction motor	600 W
Max. Area performance	5400 m <sup>2</sup> /h
